

Do you want to make a difference to people's lives?

Groundwork is a national environmental charity that works alongside the whole community to transform places and lives.

Landscape Architect

£ 23,528 - £33,528 plus excellent benefits depending on experience

2 year fixed term contract

Mill Green, Hatfield, Hertfordshire

Groundwork Hertfordshire is at an exciting stage of growth and change as we enter our 24th year. With a growing turnover approaching £4 million we are in a strong position to build on our achievements so far. We are seeking to appoint an enthusiastic and creative landscape architect to join a busy design team currently numbering six people working on a varied, expanding programme of environmental projects across Hertfordshire, Luton & South Bedfordshire and Essex. We are flexible as to the level of experience but do require sound knowledge of AutoCAD and contract management.

Demonstrable experience in design and procurement of landscape schemes is essential. The post holder will have the opportunity to take smaller projects from initiation to completion as well as assisting on larger schemes with the exact role tailored to fit the skills of the candidate. No direct staff management is involved. The role will provide valuable learning opportunities through both project work and personal development. The use of AutoCAD and related software applications is essential to both posts with a working knowledge of GIS preferred. Due to the unique Groundwork approach to environmental improvement good communication skills and experience in working with a range of partners will be an advantage.

Closing date: ongoing recruitment
