

PRESS RELEASE – FOR IMMEDIATE RELEASE

SKF (U.K.) Limited employees volunteer at Mary Brash Court

Luton, 23 April 2008 - On Wednesday 23 April, employees of Luton based company SKF (U.K.) Limited will be teaming up with Groundwork Luton and South Bedfordshire, the environmental regeneration charity, to volunteer in the gardens at Mary Brash Court, a sheltered housing scheme for older people in Lullington Close, Luton.

The group of employees from SKF (U.K.) Limited will be working with Groundwork staff to carry out a variety of tasks including clearing, weeding, planting and general tidying to help brighten the garden and entrance area. All employees at SKF (U.K.) Limited's Luton offices are given time off to take part in volunteering events in their community and this project is part of their employee volunteer scheme.

The work carried out will make a real difference to the grounds at Mary Brash Court which are currently in need of some improvement. It is hoped that the improvements will leave residents with an attractive and welcoming entrance area and an easy to maintain garden that can be enjoyed with family and friends.

Debbie Vidler, Senior Community Project Officer at Groundwork Luton and South Bedfordshire said:

'We'd like to thank SKF (U.K.) Limited for their hard work. Groundwork are pleased to be involved in a project which will make such a difference to residents and visitors at Mary Brash Court.'
